

Protect existing investments,
introduce new services.

Introduce new services and create partnerships with Adjunct Rating

Today's competitive market demands mobile operators provide innovative services along with creative pricing and marketing campaigns. Unfortunately, the rapid expansion of convergent services and increased competition have left many operators with infrastructures that haven't kept pace with these advanced rating strategies.

Why replace your entire legacy solution when Interact's Invigorate can provide adjunct rating with the following features:

Rating

- First Rate, Intermediate Rate, Additional Rate
- "Joined Accounts" (Family Plans, Business Plans, Multiple Device Plans)
- Time of Day/Day of Week
- Location Based Rating - TriZone
- Daily Declining Call Rate (DDCR)
- Buy One Get One Free (BOGOF)
- Home Zone
- Service Capping
- Activation Based Rating
- Flexible Charges
- Reserved Funds (for Simultaneous Service Usage)
- Wildcarding
- Blocking

Enhanced Discounts

- Promotional Discounts
- Custom Discounts
- Subscription Discounts
- Periodic
- Usage Based

Promotions

- Transactional Recharge
- Cumulative Recharge Amount
- Cumulative Number Amount
- Plan Change
- Reward Funds
- Reward Offers
- Term Promotions
- Offer Driven Promotions
- Promotional Notifications
- Service Partitions
- Bolt-Ons
- Partition Rollover
- Bonus Partitions
- Unit/Money Based
- Active Upon Recharge

Subscriber Funds

- Real Money / Bonus Money
- Plan Fund
- Prepay/Postpay/Hybrid Accounts
- Operator Micro Loan (for emergencies)

Payment Solution Voucher Solution API Suite

Interact's Invigorate Real-Time Billing and Rating solution provides adjunct rating, allowing additional advanced rating functionalities inherent to the Invigorate platform to be implemented into an operator's legacy solution as the company grows.
